## CAREER OBJECTIVE

I am currently studying a Bachelor of Science in Information Technology, seeking an opportunity to apply my technical knowledge, develop practical skills, and gain hands-on experience in a professional IT environment.

## PROJECTS

### BARANGAY INFORMATION SYSTEM

Developed a web-based system to streamline barangay operations, including resident record management, issuance of certificates, and monitoring of local programs. Implemented secure data handling, automated reporting, and user-friendly interfaces to improve administrative efficiency and service delivery to the community.

### CISCO | CYBER PATROL HEADQUARTERS

A network-based project developed using Cisco network technology to simulate a cyber monitoring environment. The project demonstrates network design, device configuration, IP addressing, and secure communication for monitoring and managing cyber activities.

### SOLO CARE: A SOLO PARENT INFORMATION AND ASSISTANCE SYSTEM

Developed and implemented a web-based system that centralizes solo parent records, automates program notifications, and facilitates efficient access to government assistance. Enhanced user experience with intuitive design and ensured data security for reliable service delivery.
